

El Paso's Half Million Dollar High School, Most Modern In United States

THIRTY MILES OF
Pavement LaidEl Paso County Has More
Good Roads Than Any
County In The State.

The people of El Paso, city and county, for years have been deeply interested in good roads, and have cheerfully, or with a minimum of "kicking," contributed to the road tax fund, which has given the county the distinction of being the county in Texas having the greatest mileage of paved, graded, gravelled and otherwise improved highways.

Yaleta Road Improved.
When the El Paso-Yaleta road was paved, nine or ten years ago, it was believed that a 16 foot driveway was ample. Time and an increase of travel over that popular high road proved that the builders were wrong, and last year the wrong was made right when the comfort and safety of the road was improved by widening it to 24 feet wide with cement shoulders, and a new bituminous surface.

CAPT. KIMBER WAS
READY TO DIE OF
CONSUMPTION

Doctors Told Him So, But He Is Gaining Strength and Health
—Tells How.

"My case of tuberculosis was an advanced one of over five years' standing. I was in a tuberculosis hospital for over a year and returned home worse than when I went. I had to give up a good position in New York City and move into the Catskill mountains, where I was in the hands of a physician. The doctors said I was ready to die a year ago. I was so weak I could hardly stand up."

"I began taking Mike Emulsion last October. I have now taken 13 large bottles and my gain in health and strength has been very steady. I am now able to walk to the village three miles and back, and chop a little wood every day."

"I used to find a spasm in my chest once a day and my cough was continual. Now I do not raise enough to fill a spittoon in a week. I do not cough any more during the day, only when I get up in the morning."

"When I first began taking Mike Emulsion, I was so weak I could hardly stand up. I could not take a deep breath without coughing. Now I can take in draughts of fresh air without any of the previous irritation. I had six hemorrhages prior to last October, but since taking Mike Emulsion, I have not spit up a bit of blood and have been practically free from temperature."

"I have been treated by thirteen different doctors and had spent all my money trying to find a cure. The doctors all told me that there was no medicine that could do this, so I was very skeptical about trying even the first bottle of Mike Emulsion. But I was persuaded to do so by a nurse who told me of two positive cures it had effected in her own family."

"Thank God I tried it. I began to feel a beneficial effect only ten hours after I started. I felt a new life coming. I was feeling pretty sure it would effect a cure in my case, as I am steadily improving. The advanced stage of my disease had arrived before I heard of Mike Emulsion, and this is making my recovery slower than I had started taking it a few years ago."—Capt. Frederick R. Kimber, Danville, California, N. Y.

Capt. Kimber wrote this letter August 1, 1918. His constant gain in strength and health through this wonderful food is evidence of the fact that it is a remedy for all cases of tuberculosis, pneumonia, emphysema, and all other lung diseases. It is a food, and it is a medicine. It is a food because it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

GOOD WORK OF
THE AUTO CLUB

President Recites Accomplishments of Organization the First Year.

(Continued from page 1.)

Office was established in the club's headquarters in the lobby of the Shelton hotel and a systematic campaign was carried on by Lieut. J. J. Jones, and Miss Susan Elder assisted by a number of noncommissioned officers from Fort Bliss.

Officials of the club also appeared before the Rotary and Kiwanis clubs and asked for assistance in carrying out the campaign. The club has been made to the business men of the city, the result of which was the donation of a number of advertising in the newspapers of El Paso.

Good Results Achieved.
For four weeks the office was open from 8 a. m. till 10 p. m., and nearly 1000 applications were received. Capt. J. J. Jones, of Washington, D. C., who had charge of the recruiting of the motor transport corps, advised us that the office in El Paso got the most satisfactory results of any station in the United States.

A ship was established at Fort Bliss and 1000 men are now employed there. To this office was assigned the territory embraced in west Texas, Arizona and New Mexico for work and a branch office was established at Phoenix, Ariz., through the courtesy of the chamber of commerce of that city. The work at place was directed by R. A. Kirk, who rendered valuable assistance to the office at El Paso.

The club, through its secretary, has been successful in securing a number of war savings stamps, thus becoming a member of the limit club. The club was the sole instrument in inducing the city of El Paso to extend the parking ordinance from 20 to 40 minutes. The club was also responsible for the promise of the city to the automobile section of the Labor day parade was turned over to the club and marshaled by E. Gordon Perry. The club encouraged motorists to be in this parade and for the first prize gave a silver loving cup. Second and third prizes were also given by the club.

Auto Traffic Checked.
The club, through the efforts of director G. A. Mabel, and president G. R. Roe, secured from the government an order that no automobile shall be permitted to cross the border without an identification card, and this order has helped considerably in making it impossible for auto thieves to find refuge in Mexican territory by means of a dash across the international border.

The club has caused the arrest of many fire and necessary thieves and has recovered more than \$100 worth of stolen tires and tools in El Paso, Marfa and elsewhere. The club gave one of the thieves five years in the state penitentiary.

The president of the club was a delegate to the Little Rock good roads convention and at the representative, too, of the chamber of commerce. On his return he stopped at Austin, Texas, and secured a loan of \$50,000. On that occasion, also, the Ward county bonds were disposed of and the proceeds applied to the construction of the Fort Worth and El Paso highway.

The club sent a delegate to the Little Rock good roads convention, C. H. Lester, who, without cost to the club, was instrumental in getting the Red cross petitioners interested in a route by way of El Paso, which seems destined to be an important factor in the future of the highway which will mean many thousands of dollars to the city.

The club also took an active part in the entertainment of the pathfinders of the Bankhead highway on their arrival in the city, October 2, and E. M. Randall, of the El Paso Overland company, and E. G. Perry, of the Lone Star Motor company, for the transportation of the party to El Paso.

Ordnance Trail Routed This Way.
The club, through the efforts of E. M. Randall, secured from the government an order that no automobile shall be permitted to cross the border without an identification card, and this order has helped considerably in making it impossible for auto thieves to find refuge in Mexican territory by means of a dash across the international border.

CITY WATERBES
DECLARED PUREScientist Reports El Paso
Supply Best On Record;
System Extended.

"I wish to congratulate you on the purity of your water supply," writes Landon C. Moore, chief chemist of the Lancaster system, in a letter to H. P. Jackson, manager of the municipal water plant of El Paso. "The bacteriological analyses of the samples of the water from the El Paso water plant, made by me, were the very best I have ever made. The total bacterial count was but 45 per cent, and there was an absolute absence of coliform bacilli. I again congratulate you."

A letter like the foregoing, from a man so prominent in his profession, is a letter of commendation, of which the people of El Paso should be proud, said Mr. Jackson. "One of the first questions asked by a man or woman, casting about for a new field of business endeavor or looking for a new home, for any reason, is 'Have you good water and plenty of it?'"

El Pasoans can always answer that question in the affirmative. In addition to Mr. Moore's letter, we have his analysis of the water, which shows but 45 per cent bacteria per gallon. Mr. Moore concludes his letter by saying: "I consider your water a perfectly safe and excellent water for human consumption."

An analysis of the water, The analysis alluded to by Mr. Jackson follows:

	Parts Per Thousand	Grains Per Gallon
Granular matter	.0001	2.50
Silica	.0001	2.50
Iron oxide	.0001	2.50
Magnesium carbonate	.0001	2.50
Calcium carbonate	.0001	2.50
Calcium sulphate	.0001	2.50
Sodium sulphate	.0001	2.50
Sodium chloride	.0001	2.50

Total .0001 24.92
Water for 150,000 inhabitants.

El Paso's water plant is not only being added to in order that there may be an abundance for all purposes. During the year a well has been sunk at the end of Montana street, in the eastern section of the city, which adds 2,000,000 gallons a day to the supply. Another well, at the intersection of Moreland and Gramma streets, will be completed in the near future and will add another 2,000,000 gallons to the daily supply. These wells, with the battery

A "DEAD SHOT"
—SAYS MINISTERBlack-Draught Given High Praise
As a Stomach and Liver Medicine by Well-Known Old
Gentlemen Who Has
Used It.

Mineola, Texas.—The Rev. M. G. Jenkins, a retired minister of the M. E. Church, South, living in this city, says: "I have used Black-Draught as a stomach and liver medicine, and have never found its equal."

Once I suffered for two months with cramps and pains, tried everything I could hear of without avail, but Black-Draught was a "dead shot."

I am known here and all over the state for my honesty and truthfulness. I am 73 years old and have used Black-Draught for years.

I can highly recommend it to any one as a liver medicine that has no equal. It is excellent for stomach, liver and other ailments. I use it for a bad taste in the mouth, headache and other sicknesses that come from the disorders of the liver."

Thedford's Black-Draught is purely vegetable, and acts actively on the bowels, gently stimulating the liver, and helping to increase the normal discharge of bile into the intestines.

It assists in the digestion of food and relieves constipation in a prompt and natural way.

WOMAN'S CLUB IS
HELP IN THE WARIts Members Have Been
Actively Engaged in
War Winning Effort.

BY MRS. S. H. SUTHERLAND.
The Women's club of El Paso, organized by Mrs. W. W. Mills in 1914 and incorporated under the laws of Texas in 1916, occupies its own beautiful club house on Mesa avenue. It is conceded to be the finest woman's club building in the state, if not in the entire southwest.

The club house are housed two of the best known woman's national patriotic organizations. In one of the spacious drawing rooms the Red Cross chapter of the city, and in the other the El Paso chapter of the United States G. O. P. The club has a beautifully furnished chapter room in another drawing room on the second floor is formed the chapter room of the Robert H. Lee chapter of the I. O. O. F.

Made Its Headquarters.
The young but vigorous McDowell club, an auxiliary of the Women's club, under the able direction of Mrs. W. H. Brown, fills a "long hot war" in the community for a real study club for realists, as only realists are eligible to membership. The McDowell club has its home in the building, giving five realists each month. It has about 400 members.

Mrs. C. H. Stevens is president; Mrs. J. W. Looman, vice president; the executive committee consists of Mrs. J. W. Looman, as chairman, is the center of musical life in El Paso.

The department of current events and literature with Mrs. Stanley Suran as chairman, is giving the members an opportunity of hearing the most able speakers on the vital questions of the day. The art department with Mrs. H. H. Dudley, chairman, will give to the club some most interesting afternoons. This month Mrs. Lons of the state university, talked on interior decorations, a subject of much interest to all housewives.

From a Social Center.
The object of the Women's club is to form an organized center for the intellectual culture of its members, to give them an opportunity of physical, intellectual and moral culture in the community. The club house is a social life for the younger high school set. New Year's day the club gave a "The Year's Review" to the high school pupils.

The activities of the club the past year have been secondary to the Red Cross work and the activities of the club have been secondary to the Red Cross work and the activities of the club have been secondary to the Red Cross work.

Active in War Work.

GIRLS! ACT NOW!
HAIR COMING OUT
MEANS DANDRUFF"Danderine" will save your
hair and double its beauty
at once.

Try this! Your hair gets soft, wavy, abundant and glossy at once.

Save your hair! Beautiful hair is only a matter of using a little Danderine occasionally to have a head of heavy, beautiful hair, soft, lustrous, wavy and free from dandruff. It is easy and inexpensive to have pretty, charming hair and lots of it. Just spend a few cents for a small bottle of Danderine. Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, glossiness and an incomparable gloss and luster, and sure for itchy scalp, and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, make a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.

Soan's
Liniment
Kills Pain

You're Sick! You're Tired! You're Nervous! Why?

To-day's call on the vitality is tremendous! Only those with strong nerves pull through with success! You need help! Something to renew wasted nerve tissues, put red corpuscles into your blood, and carry you through and "over the top." You need

SENSAPERSE

for this impaired condition. Stop the brain pain, the irritability, the nervous indigestion, the restless sleep, the tired and exhausted condition that is becoming a habit with you. Take Sensaperse for ten days and your nerve health should double, try it and see how health and energy will come back into your life and carry you through and "over the top." You need

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup or worse. And then when you're glad you have a cough, Musterole at hand to give prompt relief. It does not blister.
